

Dear Assistant Secretary.....I would hereby like to make a submission regarding proposed anti-discrimination legislation increases by the Federal Government.

I request that no further legislation of the fore-mentioned kind be enacted. Freedom of religion, freedom of speech and freedom of choice stand to be affected by such legislation, as past experience has proved...see Wesley Mission case and ‘the two Dannys’ case, and many more. I request that anti-discrimination legislation not be enacted on the basis of sexuality and gender equality...our laws already cover such bases, and we do not need further complications and more waiting lists of cases to be heard. We ask that fair play and common sense be allowed to prevail in our nation.

Sincerely, Jennifer Suzette Whately B.Sc. Dip.Ed. (UWA) [PERSONAL ADDRESS REMOVED]
