

Will unborn children gets rights..?

If a parent wants a child they look after it while it is in the womb and doctors take care of the child and put it in a humi -crib if it is born too early

Yet if a parent doesn't want the child it is killed and disposed of in the rubbish bin. This is murder..

An unborn child must have rights. The right to have a life.

Also. As a christian I am concerned that any new legislation may prevent me from keeping my bible as some of the things in it may be deemed discriminatory as might many other religious texts.

I have also concerns regarding the freedom of speech and gags on the media that prevent them reporting ,without them deemed to be inflammatory.

Also have you considered if you pass laws to not discriminate then you will have to let every refuge settle..

Also in some cases it is in the national interest to discriminate. Some extreme groups need to be discriminated against like satanic rituals that sacrifice children and so called child lovers etc

Some behaviours are just not good for our nation and there must be safe guards to not make these laws not so broad that it encompasses sin and evil

Yours sincerely
