

The Assistant Secretary
International Human Rights & Anti-Discrimination Branch Attorney-General's
Department ACT

Dear Sir or Madam:

I am opposed to the extension of anti-discrimination law, especially that which is based on sexuality and gender identity.

The reason for this is the clearly adverse impact this has of freedom of choice & of religion.

For example why should the Christian Youth Camp on Philip Island be obliged to take in a homosexual group when it sincerely believes that homosexuality is an immoral & harmful lifestyle?

OR Why should a Muslim group be, in any way, obliged to consume alcoholic drinks when they abhor such a practice?

The principle of religious freedom is too precious to be frittered away or compromised.

I urge you not to allow this latest anti-discrimination push.

Yours sincerely,

Spero Katos
