

I oppose the introduction of anti-discrimination law based on sexuality and gender identity.

The introduction of such laws will divide society by destroying freedom of thought, freedom of speech and freedom of religion.

Christians, Muslims and Jews for example will have the Bible, the Koran, and Old Testament books virtually outlawed under the sweeping changes that would occur.

We have seen how devious such laws have been around the world and rather than increasing rights it actually decreases rights of the majority for the common good of whole of society.

Humans are called human beings and human rights are about being human, who you are and not by what you do.
