

Dear Robert Garran.

These new Anti-Discrimination laws that you are planning to implement are Discriminatory and will destroy **freedom of choice and freedom of religion. I Ask that no changes be made to extend anti-discrimination law. All anti-discrimination law removes freedom of choice - we already have too many such laws. [Anti-discrimination law is dealt with by Equal Opportunity Commissions and Tribunals - the 'rule of law' is not the overriding principle there!]'.**
