

To whom it may concern,

I strongly ask that no changes be made to extend anti-discrimination law. Same sex marriage protection laws are against the stability of society and are completely against the laws of nature as well. I oppose the introduction of anti-discrimination law based on sexuality and gender identity.

Laws have already made it so homosexual groups can be outspoken and people with religious views are to be silenced. Religious views are being discriminated against in the media constantly. Where is the equality there?
